Projects

Image Search Engine

Technologies Used: HTML, CSS, JavaScript

- Developed a web-based image search engine that allows users to search and view relevant images through a user-friendly interface.
- Designed responsive UI layouts using HTML and CSS for smooth user experience across devices.
- Implemented JavaScript to handle search functionality, image rendering, and dynamic content updates.
- Focused on fast loading and efficient display of image results.

Smart Recipe Finder

Technologies Used: HTML, CSS, JavaScript

- Developed a web-based smart recipe finder that suggests recipes based on user-entered ingredients.
- Designed a clean and responsive user interface using HTML and CSS for smooth usability across devices.
- Implemented JavaScript to process ingredient inputs, handle search logic, and dynamically display recipe results.
- Added optional image upload feature to enhance ingredient input flexibility.
- Included functionality to save favorite recipes and manage search results efficiently.
- Focused on fast response time and intuitive user experience for everyday cooking needs.

Assesment and certification

Databases Management System– NPTEL

Key Skills: Database Management, SQL, Data Modeling

- Completed the NPTEL course covering fundamentals of databases.
- Learned concepts such as ER models, relational models, normalization, and SQL queries.
- Gained understanding of database design and data management techniques.

Programming in Java – NPTEL

Key Skills: Java, OOPS, Exception Handling

- Successfully completed the NPTEL course on Java programming.
- Studied object-oriented programming concepts including classes, objects, inheritance, polymorphism, and abstraction.
- Gained hands-on knowledge of Java syntax, control structures, and basic application development.

EXTRA CURRICULAR ACTIVITIES

- Debate Member

PERSONAL INTERESTS / HOBBIES

- Reading ,Traveling , Puzzles and Brain Games

PERSONAL DETAILS

- Gender: Male
